*You and your patrol find yourselves **LOST** on a deserted island in the middle of the ocean! Will you be able to survive until the rescue team arrives? Patrols will need to work together to build a fire, build a shelter, purify water, find lost patrol members and signal for help using tools and items found on the island. You may need to build a bridge across the tar pit, or you may find the parts to build a signal rocket! Patrols that survive long enough to be rescued will be invited to a special "Welcome Home" celebration on Saturday night.*

Attention Arrow of Light Scouts!

Scouts who are currently working toward their Arrow of Light
(Crossing over in Spring 2019)
