

Welcome Families,

Our Cub Family Day at Rodney Scout Reservation is coming in a flash. In this guide, you will find the answers to many of your questions. If you have additional questions, please let us know and we will get them answered. Contact me by email at aldejavu79@hotmail.com. The safety of all participants, staff members, and volunteers is our number one priority. We will be taking great measures to do our best to mitigate the chance of spreading communicable diseases including COVID-19.

Several steps being taken include:

- All attendees must check their temperature and complete the pre-event checklist (found at the end of this guide) before leaving home.
- All attendees will have their temperature re-checked upon arrival.
- All attendees must have a mask to wear when they are not able to be socially distant from others.
- All families/groups must carry hand sanitizer for personal use. Additional hand sanitizer will be available at program stations.
- All attendees must bring their own water bottle and lunch. Most importantly, if you are sick or have potentially been exposed to someone that is sick, stay home!

All Cub Scouts, Webelos, AOLs, parents, siblings, and friends can join in on the fun beginning on Saturday morning. Check-in will begin at 9:30a.m. outside of Sampson Lodge and Programs will run from 10a.m. to 4:30p.m. We look forward to having you join us for a fun filled Zootastical day.

Cub Family Day Information Cars & Carpooling:

Parking is at a premium in camp so please carpool as much as possible. Please drive only on established camp roads. ALL vehicles will need to be parked in the main parking lot and remain there until departure.

Check In:

Starting at 9:30am Check-in will occur right outside of the main parking areas in Rodney Scout Reservation. No need to leave your cars, ALL attendees must be checked in so that a medical screening and temperature check can occur. If someone has a fever or does not pass the pre-event checklist, everyone in the vehicle with whom that person traveled to camp, may be required to leave camp. If this occurs refunds will be handled through the DMVC Outdoor Programs office.

Program Times & Science Groups:

Cub Family Day Programs will begin at 10am and run until 4:30pm. Participants will be grouped into Zoo Groups and become Zoologists for the day. Everyone will have an opportunity to explore all of our activities along with their Group. Groups will be assigned at check-in. We will make every attempt to have all members of a given Pack in the same Group. Each Group will be assigned time slots in which they will travel to and participate in various activities. The official schedule for the day for your assigned Group will be given to you at check-in.

Lunch:

All attendees are responsible for bringing their own lunch/snacks as there will be no food service. Refrigeration and microwaves will not be available, so plan accordingly. You can eat outdoors whenever and wherever you'd like, though you will have a period of your day scheduled for a break/lunch. If you find a good spot and a down moment feel free to enjoy a snack or your lunch. Adequate trash cans and recycle bins will be placed strategically throughout camp. Remember a Scout is clean.

Some Activities that will be available:

BB Range	Zoo Experts
Archery Range	Scout Skills
Climbing Wall	Animal First Aid

and Much more...

In an effort to be courteous to the environment recycle whenever possible. We would ask families to bring Recyclable materials for our Animal Enrichment projects.

First Aid:

There will be a Camp Health Officer located on property for any first aid needs. Please make sure that you have a completed and updated BSA Annual Health & Medical form (Parts A & B) for each person attending. These forms will remain with the Pack Leader, or individual family. Health forms can be found on the BSA National website at: <http://www.scouting.org/scoutsource/HealthandSafety/ahmr.aspx>

Alcohol and Tobacco:

There is “zero tolerance” with the regards to the possession and use of illegal drugs and/or alcohol in camp at any time. Anyone found to be in violation of this National Boy Scouts of America Policy will be expelled from camp property. Please inform your parents accordingly. It is the policy of the Boy Scouts of America that the use of tobacco products, including e- cigarettes/vaporizers, must be done out of view and smell of any youth.

Model COVID-19 Pre-Event Medical Screening Checklist

Use this checklist to assist in identifying potential COVID-19 cases before event participation.

Review with each youth and adult participant their current health status, both before departure and upon arrival at the event. **Anyone entering a camp or event – including visitors, vendors, etc. – must be screened.**

Councils should customize with input from their council health supervisor and local health department.

- Yes No Have you or has anyone in your household been in [close contact*](#) in the past 14 days with anyone known or suspected to have COVID-19 or is otherwise sick?
- Yes No Have you or has anyone in your household been in [close contact*](#) with anyone who has been tested for COVID-19 and is waiting for results?
- Yes No Have you or has anyone in your household been sick in the past 14 days, or have you or they been tested for any illness and are waiting for results?
- Yes No Has anyone in your household been exposed to an individual known or suspected to have COVID-19 in the past 14 days?
- Yes No Have you or has anyone you have been in [close contact*](#) with traveled on a cruise ship or internationally or to an area with a known communicable disease outbreak in the past 14 days?

***According to the Centers for Disease Control and Prevention (CDC), “close contact” means:**

- You were within 6 feet of someone who has COVID-19 for a cumulative total of 15 minutes or more over a 24-hour period
- You had direct physical contact with an infected person (hugged or kissed them)
- You shared eating or drinking utensils
- An infected person sneezed, coughed, or otherwise got respiratory droplets on you

If the answer is YES to any one of the five questions above, the participant must stay home.

If all answers above are NO, proceed to the symptoms list below.

Symptoms of COVID-19

*If anyone in your household has **any one** of the following new or worsening signs or symptoms of possible COVID-19, the entire household must stay home.*

- Shortness of breath**
- Cough**
- Fever of 100.0° or greater**
- Flu-like symptoms**
- Repeated shaking with chills**
- Fatigue**
- Muscle or body aches**
- Headache**
- Sore throat**
- Loss of taste or smell**
- Diarrhea**
- Nausea or vomiting**

****Potential Higher-Risk Individuals****

- Yes No Are you in a higher-risk category as defined by the [CDC guidelines](#), including older adults, people with medical conditions, and those with other individual circumstances?

If the answer is “yes,” we recommend that you stay home.

Should you choose to participate, you must have approval from your health care provider.
